Minus 1000. This judge lacks humanity to say the least. My ex's attorney was in politics so it was a done deal for me. Endless motions, extreme bias and one day I will expose it all. RECUSE this judge at your first opportunity.

A rude and obnoxious little man, and a cruel bully. He is supposed to be there to seek fair, impartial resolution to family matters, yet he completely ignores factual evidence and fabricates facts based on his bias, presumptuous favoritism of his RAPIDLY chosen party. Forgets what he ordered and does not evaluate motions or reads them. Quote Hon Jack Helinger "Well you married this nutcase!" This man went on to attack my relationship with my son insinuating that I did not care for him as much as I should. My son is a 26 year old father, battling a brain tumor and Helinger knows this. Case management after case management hearing for what? The petitioner and respondent are in better control and management of this case than Helinger.

Very emotional. Can become very subjective very quickly. Never reads the actual motions filed. relies completely on you explaining the motions during the hearing. If you say one thing he does not like, consider yourself in his bad light for the rest of the hearing.

Very emotional judge. Rarely reads entire motions. He prefers to listen to summaries. He makes up his opinion early on without exploring all evidence. He literally said in court that he doesn't require expert psychiatrists or psychologist opinions because of his vast experience.

Wow.

Unbelievable that a supposed judge is permitted to conduct himself with such arrogance and disrespect for justice,balance, or just plain fairness. He actually presented a flat faced lie in judges chamber when speaking about his being"stayed" after an appeal was done on an unequivocally wrong and Illegal order done be him. He decided to overturn a colleagues decision without any real rhyme or reason other than his clear intent and purpose in the court-- to constantly satisfy his ego and feelings of authority. Ridiculous judge and an embarrassment to St.Pete

Honorable Jack Helinger, was one of 3 judges I had through out my child support case of almost 3 years and in my opinion was the best judge and the only one who really gave me a fair hearing that I deserved..

Comments:

This judge has been repeatedly unfair and unprofessional to say the least, so much so that one attorney has filed a stipulation in one case stating this judge has not done "anything close to what would be fair or in the best interest of these children," "going in front of this person again "would make undersigned counsel physically ill," and the rulings "are not consistent with the Court's own findings or the prior judges' findings."
